## **Lochinvar KNIGHT Heating Boiler Now Exceeds 95% AFUE**

Aireco is proud to announce Lochinvar Corporation's line of KNIGHT Heating Boilers are now certified with AFUE ratings that exceed 95%!

The KNIGHT, direct vent, condensing boiler line with SMART SYSTEM features standing models with inputs of 80,000 to 500,000 Btu/Hr, and new wall units from 50,000 to 210,000 Btu/Hr.

Right out of the box, the KNIGHT is engineered to the highest standard, with up to 98% low temperature efficiency, full modulation with 5:1 turndown, and a lineup of built-in features that is unmatched by any other modulating condensing boiler.

The KNIGHT offers outstanding energy savings, easy operation, and stylish design. For more information, be sure to stop in any Aireco branch today to check out the KNIGHT Heating Boiler, or call Mark Rose, Aireco's Hydronic Specialist, at (703) 684-7800.
