

National Refrigerants
Automotive R-134a High Mileage Formula
and
R-134a U Charge Connection
have been added to the Aireco product line.

Benefits:

- R-134a High Mileage is perfect for older vehicle air conditioners where there may be some performance loss due to aging.
- Promotes longer life of the compressor and results in a quieter system operation.
- Keeps internal components of system running cleaner to prevent future loss of performance in older systems.
- Costs approximately 50% less than the same item in automotive stores.
- 12 oz. Can.

Cans require a 134a automotive connection, which is available as part #6035.
