

Supco HT80 & HT100 High Torque Hard Start Kits have been added to the Aireco product line on.

Matching a high current relay with a high voltage capacitor means the ultimate torque for the most reliable Hard Start Kits.

Features:

- Device includes high current potential relay and 330 VAC start capacitor
- 40 Amp electronic potential relay provides superior performance for low voltage applications
- Senses Motor Start
- Instant Re-start
- Safety time delay if compressor fails to start
- Easy 2 wire installation
- UL recognized

Applications:

- For use on all types of single phase 208 – 277 VAC air conditioning, heat pump, and refrigeration compressors; including reciprocating, scroll and rotary from 1 – 5 hp.
