ONE&DONE!

NCLS15

LEAK STOP / +UV
6-15 TONS

Leak Stop is a concentrated refrigerant leak sealant supplied with a hose injection delivery system that makes installation simple, fast & easy. Leak Stop + UV contains a UV dye for sealing and identifying the leak. Both products are specifically formulated for use in systems between 6 and 15 tons.

NCLSUV15

LEAK STOP / +UV
6-15 TONS

Leak Stop is a concentrated refrigerant leak sealant supplied with a hose injection delivery system that makes installation simple, fast & easy. Leak Stop + UV contains a UV dye for sealing and identifying the leak. Both products are specifically formulated for use in systems between 6 and 15 tons.

NCAIO5

ALL-IN-ONE
UP TO 5 / 6-15 TONS

Is the ultimate all-in-one product that is manufactured to contain leak sealant, dye, system reviver, acid negator and a drying agent in one hose injector. It seals leaks, locates leaks, removes moisture and acid...and even revives systems.

NCAIO15

ALL-IN-ONE
UP TO 5 / 6-15 TONS

Is the ultimate all-in-one product that is manufactured to contain leak sealant, dye, system reviver, acid negator and a drying agent in one hose injector. It seals leaks, locates leaks, removes moisture and acid...and even revives systems.

NCLSKU5

LEAK SEEK
1.5-5 TONS

Is a high performance universal dye that works with mineral, PVE, POE, Akyllbenzene and Mineral oils. When introduced into the system it will find and mark the leak(s).

NCAN5

ACID NEGATOR
1.5-5 TONS

Is formulated to convert moisture/acid in the system into an inert oil. The highly polar molecules in the formula bond w/ those of moisture/acid throughout the system. Through the refrigeration process of going from liquid to vapor, it produces an inert synthetic oil.

Great Chemistry! Great Results!
