## Prevention Treatments

### ACE EVAP-GARD (AEG) & BBJ MMR II

are hard surface disinfectants registered with the Environmental Protection Agency with EPA #1839-83.

ACE EVAP-GARD (AEG) & BBJ MMR II are ready-to-use cleaners and disinfectants recommended for use on hard, non-porous surfaces. Applications should be made with a coarse sprayer (not fogged) and sprayed disinfectant should be allowed to remain on surface for at least 10 minutes prior to cleaning surface with clean paper towel or similar cleaning wipe. Alternatively surface can be allowed to air dry.

Products with this  
EPA registration #  
are shown in EPA's  
LIST N Registered  
AntiMicrobial Products  
for Use Against Novel  
Coronavirus  
SARS-CoV-2, the  
cause of COVID-19  
(Dated 3/3/20).

# MMR II

## Ready-To-Use Mold & Mildew Remover, Disinfectant/Cleaner

### DESCRIPTION

BBJ MMR II combines the germ killing ability of a disinfectant with a cleaning agent to clean mold, mildew and other bacteria and organisms, disinfect and deodorize in one labor saving step. This non-acid, ready-to-use, non-abrasive, solution cleans and disinfects hard, non-porous, inanimate environmental objects such as floors, walls, metal surfaces, glazed porcelain and ceramic tile, plastics, shower stalls, bathtubs, cabinets, air-conditioning vents, coils, grilles, diffusers, and other surfaces where microbial contamination may accumulate. It is a highly effective agent to use against a broad range of disease causing organisms, yet easy on equipment.

This powerful cleaner is ideal for use in homes, hospitals, nursing homes, operating rooms, public restrooms, schools, food processing plants, office buildings, manufacturing facilities, lodging establishments, retail businesses, and athlete/recreational facilities where housekeeping is of prime importance in controlling the hazard of cross contamination.

It may be used in the kitchen on counters, sinks, appliances, and stovetops. A rinse with potable water is required for surfaces in direct contact with food. In addition, this product deodorizes those areas that generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, basements, restrooms and other areas which are prone to odors caused by microorganisms.

BBJ MMR II is convenient and mild to use without any damaging side effects. Its light lemon scent dissipates rapidly making it a pleasure to use.

*Ready-to-use cleaner available  
in a variety of sizes.*

### FEATURES

- Ready-to-use formula
- EPA registered
- Kills mold and mildew on contact.
- Bacterial cleaner and disinfectant
- Ideal for cleaning after flooding or moisture issues – or general cleanup and disinfection
- Hospital grade disinfectant

## SPECIFICATIONS

EPA Reg. No.:	1839-83-67212
pH:	11.5-12.5
Appearance:	Clear Liquid
Odor:	Lemon
Uses:	BBJ MMR II is designed to clean and disinfect walls, floors, and other surfaces where mold and mildew grow.

## PACKAGING

Description	Part #
Case of Twelve 32 oz Spray Bottles	620-12
Case of Four 1 gal Refill Bottles	611-04
5 gal Bucket	650-01
55 gal Drum	655-01

## ACTIVE INGREDIENTS

Water	Sodium metasilicate
Sequestering agent	Alcohol ethoxylate
Quaternary ammonium chloride	Glycol ether
Fragrance	

## APPLICATIONS

### MOLD REMEDIATION
